

The Prez Sez (*A few words from the appointed anointed.*)

This space is normally reserved for our exalted leader, but my deadline is here and his column isn't.

I know he fully intended to address his loyal subjects this month because he told me so twice this week. I can only guess that he's preoccupied with making a living, tending to his family, arranging a second mortgage to buy gas for his truck or some other such meaningless trivia. Anyway, I'll cover for him because that's what secretaries do for their bosses, right?

I suspect he would first praise everyone for their hard work and contributions this month - particularly those guys and gals who participated in the Range Day activities on May 3rd. We had an outstanding turnout and accomplished a great deal - not the least of which was construction of a magnificent, new, multi-level

tree stand and replacement of all the target bales.

I know he would urge all of you to enjoy the "new" range this summer and to continue participating in as many club functions as possible.

Thank You, Everyone

Our sincerest thanks to Steve Francher and Steffen Essen at *Loveland Ready Mix*; Donna Shellburg and John May at *All Weather Wood Products*, and all the BTB members who donated materials or contributed their time, sweat equity and hard work on May 3rd to make Range Day a grand success. The range was cleaned up, new target bales installed and a new, multi-level tree stand (secretly dubbed the "Tower of Power") erected. Thanks, everyone.
